2012 Saskatchewan Crop District Crop Production

Area, yield, and production information is available by Crop District for the following crops: winter wheat, spring wheat, durum, all wheat, oats, barley, all rye, flaxseed, canola, peas, chickpeas, lentils, mustard, and canary seed. Also available is summerfallow area by Crop District, total seeded area and total production by Crop District and 10-year average seeded area and production by Crop District.

- Total 2012 crop production of the listed crops was 26.4 million tonnes, down 18.6 per cent from the 2002-11 average.
- Total 2012 seeded area of the listed crops was 34.6 million acres, down 16.1 per cent from the 2002-11 average.
- All crop districts had seeded area below the 10-year average and all had lower than average production.

2012 Crop District Area, Yield, and Production
